Tint Your Windows At Mr. Tint

STAFF REPORTS

Norco - Car window tinting is one of the best ways to improve the look and comfort of your vehicle. You can protect the interior of the vehicle from sun damage by tinting the windows. Sunlight and heat can cause your interior, like seats and the dashboard, to fade, crack and deteriorate. Window tinting reduces the sunlight allowed into the vehicle, which in turn reduces how hot it gets inside your car. Likewise, homes and offices heat up during the day, and trying to keep your air-conditioner ahead of

Don't Cry When I'm Gone

MICHAEL ARMIJO

I've left this earth and you're still here crying. Well, don't cry now that I'm gone. You see, I'm free. Free of the responsibilities that came with life. I can't hear anymore; I can't see what you see. I'm a pure and flowing spirit that will roam and feel the energy of life. When I shed my body I shed the tears, the pain and the torment that came with it. I waited all my life to feel what I'm feeling now. I waited what felt like an eternity. I lived a good life on earth, so now I will lead a good life in my next step. Just as I was taken from the womb of my mother and lived that life completely, I am now taken from this life to live yet another.

I am happy, as each life

gets easier, stronger, better. I no longer know pain, so when you are in it, I cannot see you. I only know love, so when you follow it, I will watch you shine. Just as I do not remember my life in my mother's womb, I do not remember the life I had on earth. All I know is that I am truly happy now. My world now is the world that I've built in my heart while on Earth. My world is the one I had always hoped for. It is beautiful. It is wonderful. It is mine. But I must tell you, enjoy your life as I am now enjoying mine. It'll go quicker than you can ever imagine, it travels faster than you'll ever believe. One day you will look up and your life will be over. Enjoy today completely and contently as tomorrow may never come. Tomorrow never came for me.

So please don't cry when I'm gone, be happy for me as I was always happy for you. And please remember to live life with compassion and character, hope and pride, and love and peace, because the love you've embedded in your heart today is the love you'll hold onto forever.

In Loving Memory of Michael Anthony Armijo 1/20/1964-10/22/2020

Voortman's farm fresh eggs

Eggs from page 1

chine can handle about 36,000 eggs per hour at its peak. If the average bird lays one egg about every 26 hours, that equals a lot of chickens at the Voortman ranch!

Did you know that you can tell how fresh an egg is by how high

the yolk stands up in the frying pan after you crack it? Voortman's will have your over-easies standing tall. Their fresh eggs are the highest in quality, with dark, nutrient-dense yolks. You will immediately notice a difference in your cooking and baking.

Have you ever wondered how long the eggs in the grocery stores have actually been sitting

around? Despite the use-by date, there is really no way to know how long ago they were produced. With Voortman's, the eggs are selected daily, on site, and readied for you in their store.

Third-generation egg rancher, Eddie Voortman, says, "We are a local, family-owned business that provides fresh, quality products to the public."

Customers of Voortman's rave about their all natural, cage free eggs, touting the freshness, and great pricing. One customer said, "They make the fluffiest scrambled eggs!"

The eggs come in all sizes and colors, depending on your needs. Whatever you choose, you will not be disappointed.

Voortman's is centrally locat-

ed just minutes from Chino at 13960 Grove Avenue in Ontario (just north of Edison). You can reach Voortman's at (909) 465-1319; and Like them on Facebook at <https://www.facebook.com/pages/Voortmans-Egg-Ranch>.

On Oct. 6, the City hosted their 2022 State of the City and Taste of Eastvale Event at VantagePoint Church. The City celebrated all they accomplished this year and discussed what they're hoping to accomplish in the year ahead. - Youth Group of the Year – CAVA Volunteers
- Community Group of the

Year – Eastvale Kiwanis Club
- Community Honoree of the Year - Katie Stout, American First Credit Union

The community also joined together in honor of "Walktober". This is a month where residents are encouraged to get out in their community and take advantage of its walkability, according to the City. On Oct. 5,

Rosa Parks Elementary School celebrated National Walk to School Day and the Eastvale City Council and the Riverside County Sheriff's Department attended to show their support. On Oct. 12, Rosa Parks, the City Council, RSO, and JCSD all attended the Walk, Bike, & Roll event. They walked from Cedar Creek Park to Rosa

Parks Elementary with their very own Police escort and a quick warm up with Matt Olson.

Directing Traffic

Mark Hopper

My wife taught sixth grade at Chaparral Middle School in Diamond Bar California. She loved her students and they loved her too. She made learning fun and helped students succeed.

One of the worst things about teaching at Chaparral was the volume of traffic at the beginning and end of each school day. Like most teachers Jeanne got to school early to avoid the crush of cars.

When I was driving to my office one day I noticed the traffic light near Jeanne's school was out. There were no flashing red lights either. Most people were stopping but some were not. Clearly this was

a dangerous situation. There was a long line of southbound cars trying to turn on to the street leading to the school. There were also a long line of cars on the residential street trying to get away from the school after they had dropped off their students.

But the cars going northbound lane of Diamond Bar Blvd were not stopping. They drove right through the intersection without slowing or stopping. It seemed like there would be an accident at any moment.

I pulled over on the side street and got out of my car. I carefully walked out into the middle of the intersection and motioned for all of the approaching cars to stop. Then I began to direct traffic on all four

sides of the intersection. I would allow 10-15 cars to go one way and did the same with the traffic going the opposite way. I also alternated the cars making left turns. Gradually traffic improved and accidents were avoided.

Eventually a motorcycle officer arrived on the scene. I asked him if he wanted to take over but he told me I was doing a pretty good job. One of my wife's students ran into her classroom to report that her husband was out in the middle of Diamond Bar Blvd directing traffic. She didn't believe him at first but several other students confirmed his story.

Finally the police officer did take over and I went on to work. It was

a crazy situation but thankfully no one was hurt. There is a passage in the Bible in Luke chapter 15 about a Good Samaritan who stopped to help a stranger who had been robbed and injured. Let me encourage you to follow his example and be willing to stop and help when you face an unexpected situation. You may save a life or prevent serious injury to a stranger. You will be glad you did and they will too.

Depth

Pastor Dennis Morales

"Let your roots grow down into Him, and let your lives be built on Him. Then your faith will grow strong in the truth you were taught, and you will overflow with thankfulness." Colossians 2:6-7

There are many advertisements for virtual tours of homes everywhere you turn nowadays. Cyberspace has opened opportunities and a whole new world of virtual experiences to the online and "connected" generation. But one thing we can agree on is that the virtual experience isn't reality. Its life like, but not the real thing. On TV we see

house hunters who get to see and smell the home, we are just spectators. Online you can have a 360-degree view, but with a virtual experience, you don't see the neighborhood, you don't hear the neighbors you can't appreciate the colors or materials up close and personal. The virtual world is a copy of the real world. The virtual world is not a true measure of the world, but a copy, and a superficial one at most. It's possible as a person in this life to live superficially, and walk a talk a good game, but have no depth.

The Apostle Paul encourages the Colossian church to "let your roots grow down...let your lives

be built on Him." He was calling the church to grow and not be superficial. Paul says don't live life as though we're on a virtual tour. We do this when we live as if there is no deeper meaning or purpose to our lives. Sadly, people seem to be completely unaware of the danger of living only on the surface. Paul says don't measure by the world's standards. Build on him, grow your faith, and you will overflow with thankfulness. Some measure others by height – that is, how high they climb the ladder of achievement. Someone may be worth a million bucks, but also be empty inside.

Scripture says that it mea-

sures a person by his depth. Like a tree, everything depends on its roots. The psalmist said "...his delight is in the law of the Lord... he will be like a tree firmly planted..." (Psalm 1:1-3). The true measure of a person isn't influence, stature, or success, but the depth of his life. Be sure your foundation is the Lord; Build your house on the rock.

Prayer

Melody Kraemer

Every morning I wake up and thank the Lord for another day and always ask to protect my family as we go off for the day in our separate directions.

On one day last week, I was praying and said Amen. However, I bowed my head again, asked for protection for my family, and said Amen. For some reason, I did this four times this morning. Something in my heart kept telling me to keep praying.

Little did I know what would transpire on this day. But, according to the timeline of this incident, twenty-five minutes after

my prayers, I learned that they had lost my boy at school.

The story of events from that morning: The kids all lined up at the gate and were all there, so they proceeded to walk to class. All but one. My son. He wandered off. I am still unsure why the teachers were front-leading the "autism" class instead of behind them. Oh, that's right; they did mention that the aide, that is usually in the back called off sick that day.

When the teacher told me what happened, it made it sound as if he was missing for a few minutes, but come to find out, he was missing around 10-

plus minutes or so before they figured he was gone.

Once they realized he was missing, they ran out and found my boy in another person's car. He had buckled himself in and wanted to go home. I am thankful for this parent. She was kind to my son. She had to get the principal, and the principal had to coax him out of this stranger's car as he was asking for mommy.

They told me about it after school. All the what if's crossed my mind. My heart broke, but I didn't cause a scene, yell or scream. I drove off and broke down in tears.

At that moment, I knew why I had prayed so hard that morning for God to keep us safe.

Psalm 121:7-8: The Lord will keep you from all harm—he will watch over your life; the Lord will watch over your coming and going both now and forever more.

Dance Like Nobody's Watching

En Yu Chang

"It takes ten years of practice for one minute on the stage" a piece of melodic music, a beautiful dance, a set of accu-

rate expressions, plus the audience's applause, this is dance. Since I was a kid, I've loved dancing, especially aerial yoga, and K-pop dance.

After successfully setting up a dance workshop for small children at our church, I soon realized that I enjoyed teaching children to dance as much as I enjoyed dancing. Especially during the pandemic, when most children became languid and inactive in isolation of varying degrees, I relished the reward of watching children break out of their shells and have fun. Introvert children and those who were the only child in their families took more patient coaxing and empathic listening. Still, when they got into the music and paid attention

to unison and formation, my sense of accomplishment and joy was all the sweeter. We turn no one away.

As the President of Dancing With The Kids Club, I'm inviting the church, kindergarten, and elementary school educators to kindly open the door and allow us to come to sign up for dance sessions. We can work out the arrangements. The sessions will culminate in a performance show funded entirely by our club's fundraising drives at no cost to your school.

The following is my contact information: Remind: @erhsdwtk; Instagram: erhs_dwtk; Website: <https://erhsdwtk.web.app/>; and Email: erhsdancing-withthekids@gmail.com

I might not be the best danc-

er this side of Twice, but I'm a very good dance teacher.

Three years of working with children and learning choreography have served me well. Our children are urged in my

workshop to dance like nobody's watching, but they will always be comfortable knowing that whenever they dance off or even goof off, I'm there watching and admiring.

indoor marijuana nursery in the City of Eastvale is not only illegal under California law but it also brings hefty fines from city Code Enforcement. Additionally, the amount of electricity used to operate an indoor marijuana nursery not only poses a fire danger to the home, but places neighboring homes in danger who share the same power box. Residential power lines were not designed to draw 15 times the amount of power compared to the consumption of a normal family household.

To put all this into perspective, the Eastvale SET team recently served a search warrant at [an Eastvale] residence and located an indoor marijuana nursery. The occupants of the home were arrested for felony charges and the home owners were provided with a hefty \$250,000 fine from Code Enforcement. As far as the amount of power draw from this home, the electricity bills ranged between \$5,000 and \$6,000 per month. That's a lot of power!

The Eastvale SET team highly discourages anyone from operating and indoor marijuana nursery in the City of Eastvale. If you know anyone in the City of Eastvale or believe your neighbors are operating a residential indoor marijuana nursery, please contact the Eastvale Special Enforcement Team by calling the Jurupa Valley Station at

The Riverside County Sheriff's Department also issued the follow news release:

October is National Pedestrian Safety Month and the Riverside County Sheriff's Department—Jurupa Valley Station, will raise awareness about the safety of people walking throughout the month, emphasizing that "safe drivers, safe speeds and safe vehicles save lives."

"Whether in a parking lot, crosswalk, or sidewalk, we are all pedestrians at one point," Riverside County Sheriff's Department's Deputy Richard Comstock said. "Drivers, please slow down and be extra careful around people walking. Put yourself in their shoes and drive how you would want someone to drive when you are walking."

The safety of people outside of vehicles is a significant traffic safety concern, with at least two pedestrians or bicyclists killed on California roads every day. Between 2010 and 2019 in California, pedestrian deaths increased more than 40 percent and bicyclist deaths went up more than 60 percent. In 2020, 6,516 pedestrians were killed in the United States an average of 18 pedestrians a day and one pedestrian killed every 81 minutes.

Speeding, poor lighting, mid-block crossing and impairment are the main factors in pedestrians being struck by vehicles.

The Riverside County Sher-

iff's Department—Jurupa Valley Station, offers the following safe driving and walking tips:

- Drivers**
- Do not speed and slow down at intersections. Be prepared to stop for pedestrians at marked and unmarked crosswalks.
 - Avoid blocking crosswalks while waiting to make a right-hand turn.

• Never drive under the influence of alcohol and/or drugs.

Pedestrians

- Use signalized crosswalks where drivers expect foot traffic.

- Watch for approaching vehicles and be careful crossing the street, especially busier streets with higher speed limits. At 30 mph, a driver needs at least 90 feet to come to a

stop.

- Get in the habit of wearing light colors, reflective material, and walking with a flashlight at night so it is easier for drivers to see you.

Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
